

Contents

University Undergraduate Projects

Page I

-
- 1 File I/O | Object Creation and Manipulation | Java**
 - 1.1 Class File | Ship Objects
 - 1.2 Driver File | Run The Program
 - 2 Bags | Arrays and Linked Lists | Java**
 - 2.1 Interface | Bag Interface
 - 2.2 Class File | Bag Using Arrays
 - 2.3 Class File | Bag Using Linked Lists
 - 3 Resizable Bags | Arrays | Java**
 - 3.1 Interface | Resizable Bag Interface
 - 3.2 Class File | Resizable Bag Using Arrays
 - 4 Lists | Arrays and Linked Lists | Java**
 - 4.1 Interface | List Interface
 - 4.2 Class File | Array Based List
 - 4.3 Class File | Linked Based List
-

Page II

-
- 1 Algorithm | Heap Sort | Java**
 - 1.1 Heap Sort | Overall Sorting Method

- 1.2 Helper Methods | Parent, Left, Right
 - 1.3 Build Max Heap | Array Conversion To Max Heap
 - 1.4 Max Heapify | Node/Element Movement
 - 2 Linked Lists | Special Linked Lists | Java**
 - 2.1 Interface | List Interface
 - 2.2 Class File | Double Linked Lists
 - 2.3 Class File | Circular Linked Lists
 - 2.4 Class File | Circular Double Linked Lists
 - 3 Recursive Methods | Examples | Java**
 - 3.1 Example | Basic Recursive Method
 - 3.2 Recursive Object Manipulation | Towers of Hanoi **.zip download only*
-

Page III

- 1 Linked Lists | Recursive Linked Lists | Java**
 - 1.2 Interface File | List Interface
 - 1.3 Class File | Double Linked List
 - 1.4 Class File | Circular Linked List
 - 1.5 Class File | Circular Double Linked List
- 2 Stacks | Arrays and Linked Lists | Java**
 - 2.1 Interface File | Stack Interface
 - 2.2 Class File | Array Stack
 - 2.3 Class File | Linked List Stack
- 3 Queues | Arrays and Linked Lists | Java**
 - 3.1 Interface File | Queue Interface
 - 3.2 Class File | Array Queue
 - 3.3 Class File | Linked List Queue
